Dulux Trade Quick Dry Gloss is part 2 of an advanced 2 part water-based, high gloss system that provides a smooth, durable top coat for use on both interior wood and metal. With the aesthetic properties of a solvent based as well as the added benefits of faster recoat times and improved durability, it has never been so easy to switch to water-based products. High gloss, longer lasting whiteness Tough, durable finish color - tinted to your chosen color - see Dulux Trade Colours and enter your color reference in the box provided (for white - see related products) Quick Dry Gloss Product Data Sheet (550) Quick Dry Gloss Safety Data Sheet (SDS550) Coverage: Minimum 12m² per liter Touch dry: 1 to 2 hours, depending on temperature/humidity Recoatable: 4-6 hours Thinning: Thinning is not generally required. To get the best results, make sure that surfaces to be painted are sound, clean and dry (new surfaces must especially be completely dry). STIR THOROUGHLY BEFORE USE. Apply 1 or 2 layers of Dulux Trade Quick Dry Undercoat as needed, followed by 1 or 2 layers of Dulux Trade Quick Dry Gloss. Where a strong color change is involved, 3 coats will be required. Freshly painted doors and windows should not be closed (tightly) until the paint is completely dry. For the best color texture, buy enough tinted paint for each job at once from the same source. After use, remove as much paint as possible from equipment before cleaning with water. Write an online review and share your thoughts with other shoppers! Be the first to review this product.
